PRESS RELEASE

Kirloskar Pneumatic announces the results for Q1 FY26: Revenue from operations stood at Rs. 272 Cr. with Profit Before Tax (PBT) at Rs. 37 Cr.

Pune, India – 22nd July 2025: Kirloskar Pneumatic Company Ltd (KPCL) (BSE : 505283, NSE: KIRLPNU), a prominent player in Air, Refrigeration & Gas Compression business in India, announced today its financial results for Q1 FY26.

Our Total income for Q1 FY26 stood at ₹280 Cr (₹279.7 Cr in Q1 FY25), with Profit Before Tax (PBT) at ₹36.8 Cr (₹35.9 Cr in Q1 FY25). While the sales and profit numbers were flat, the business continues to demonstrate resilience and remains well positioned to build momentum in the upcoming quarters.

New order bookings for Q1 FY26 were Rs. 365 Cr and the orders on hand as of July 1, 2025, stand at Rs. 1,725 Cr. Lower order bookings and sales in Q1 were primarily due to the uncertain global situation impacting the finalization of several large orders under discussion.

During the first quarter, we successfully launched "Tyche," our new semi-hermetic reciprocating compressor. This product is specifically designed for the commercial refrigeration business segment, and its motor is manufactured in-house to ensure efficient supply & competitive price for our customers.

In our ongoing effort to reduce costs and as part of our backward integration strategy, we have established a new foundry at Nashik, featuring lost foam castings technology. Foundry in Nashik is environmentally friendly and is based on circularity in manufacturing.

The compression business continues to be our primary revenue driver, accounting for approximately 89% of the company's revenue and remains our sole reporting segment.
