TECHNICAL SKILL G SOFT SKILL

CAD Software: AutoCAD ,SolidWorks, 2D Drafting Technical Drawing, GDCT (Geometric Dimensioning And Tolerance),Manufacturing process knowledge, Basic simulation analysis, Computer knowledge:-Advance Excel ,Power Point ,Word, Problem solving Canalytical thinking, Teamwork and collaboration ,Time management ,Good Communication skill

PROJECT WORK

- **TOPIC:-** Model Of Pelton Wheel Turbine in collage
MOTIVE:- The Pelton wheel turbine project aims to study and demonstrate the working of an impulse turbine used for high-head, low-flow hydroelectric power generation. It focuses on efficiency analysis, nozzle-jet interaction, and performance variations based on flow rate and head, helping understand its practical applications in hydroelectric power plant.
- **TOPIC:-** Automatic Four Wheel Steering system in collage
MOTIVE:- To design and develop a Four-Wheel Steering (4WS) mechanism that improves vehicle maneuverability and stability by enabling controlled rear-wheel steering, thereby reducing turning radius at low speeds and enhancing lane-change safety at high speeds.
