

# SANGHARSH HOLKAR

At Post Bembli, Tq/Dt Dharashiv

☎ +91-9579322815 ✉ [holkarsangharsh10@gmail.com](mailto:holkarsangharsh10@gmail.com)

## Career Objective

An aspiring IT fresher looking forward to working with an organization where I can contribute my IT knowledge and training to enrich my professional experience in a real environment outside the academic field.

## EDUCATION

**Shree Tuljabhavni College Of Engineering Tuljapur**

**2021 – 2024**

*B.Tech - Computer Science and Engineering - CGPA - 7.23*

*Dharashiv, Maharashtra*

**Government Polytechnic College, Dharashiv**

**2019 – 2021**

*Diploma - Computer Technology - Percentage - 83.54%*

*Dharashiv, Maharashtra*

## TECHNICAL SKILLS

**Languages:** Java, SQL, HTML5, CSS3, JavaScript

**Frontend:** HTML, CSS, Bootstrap, JavaScript, React.js, JSP

**Backend:** Spring Boot, Spring MVC, Hibernate, Servlets, JDBC, REST APIs

**Database:** MySQL, Oracle

**Tools / Platforms:** Eclipse, IntelliJ IDEA, VS Code, Postman, Git, GitHub, Maven

**Concepts:** OOPs, Collection Framework, JDBC, DBMS, API Development, CRUD Operations

## PROJECTS

**Ride Connect** | HTML, CSS, JavaScript, Java, JSP, Servlets, Spring Boot

### Role - Full Stack Developer

- Developed a web-based cost-sharing ride platform for commuters to connect and share travel expenses.
- Implemented user registration, login, trip creation, and cost calculation using JSP, Servlets, and Spring Boot.
- Created dynamic and responsive frontend interfaces using HTML, CSS, and JavaScript.
- Handled session management, form validation, and server-side logic with Java and Spring Boot.
- Ensured smooth user navigation and data flow between frontend and backend using MVC architecture.

**Employee Management System** | HTML, CSS, JavaScript, Java, JSP, Servlets, Spring Boot, MySQL

### Role - Full Stack Developer

- Developed a full-stack web application to manage employee records, attendance, and salary details.
- Designed interactive UI for HR/admin users using HTML, CSS, and JavaScript with responsive layouts.
- Implemented CRUD operations (Add, Update, Delete, View Employees) using JSP, Servlets, and Spring Boot.
- Connected to MySQL database using Spring Data JPA for persistent storage of employee data.
- Handled login authentication, session tracking, and role-based access control for admin and employees.
- Followed MVC design pattern for scalable architecture and improved maintainability.

## CERTIFICATIONS

**Java Full Stack Developer Certification** | Linkcode Technologies

**Jul 2024 – Jan 2025**

- \* Completed hands-on training in Java, Spring Boot, React.js, MySQL, REST APIs, Git, and project deployment.
- \* Built multiple real-time full stack projects including e-commerce, Employee Management System, and carpool systems.
- \* Gained experience in version control (Git), debugging, code optimization, and industry best practices.

## HOBBIES

- \* Learning UI/UX Design and Frontend Tools
- \* Internet Exploring
- \* Playing Cricket
- \* Listening Music
