Experience

Web developer

internpe

📅 September 2023 - October 2023

I successfully contributed to diverse projects including the creation of impactful e-commerce website and user friendly Temperature converter website.

Education

BE. ENTC

PES Modern College Of Engineering, Pune

📅 2021 - 2025

📊 CGPA – 6.9

HSC - Higher Secondary

R.R Shinde Jr. College, Hadapsar

📅 2019 - 2021

📊 84.50

SSC - Secondary School

Kanya Prashal Ioni Kalbhor

📅 2018-2019

📊 84.80

Technical Skills

Programming Language - C language

Web Development -HTML,CSS

Databases - MySQL

Others - Basic of Networking, Excel

Projects

AUTOMATIC STREET LIGHT CONTROLLER

(P.E.S.M.C.O.E) This project is helpful for all people. This system turns on light at night. It's a sensor-based project. Specially a LDR sensor is used to detect light or dark. Whenever there is dark outside it turn on bulb

WEATHER MONITORING SYSTEM USING

BLYNK (P.E.S.M.C.O.E)

This system provides information such as the moisture of soil using a Soil Moisture Sensor, and DHT11 sensor to detect humidity and temperature of the surroundings. This live information is sent to the user using ESP8266.

CNC Drawing Machine (P.E.S.M.C.O.E)

This invention relates to the field of computer numerical control (CNC) machines, specifically to a microcontroller-operated drawing machine that transforms digital images into precise physical sketches using Gcode. It is applicable in educational institutions, design labs, robotics lab.

Certifications

Database SQL- simplilearn

Arduino- spoken tutorial

Python- spoken tutorial

Basics in Networking - simplilearn
