SUMMARY

Motivated Computer Science student with a strong foundation in programming and web development. Skilled in C++, Frontend Development. Passionate about problem-solving, building practical projects, and continuously learning new technologies to develop efficient software solutions.

EDUCATION

Walchand College Of Engineering

Btech - Computer Science Engineering - 7.05

2024 – 2028

Sangli, Maharashtra

Vidyamandir High School and Junior College

HSC - 84.50%

2022 – 2024

Ishwarpur, Maharashtra

Shri.Parvati Khemchand Vidyamandir

SSC - 91.20%

2022

Takari, Maharashtra

COURSEWORK / SKILLS

- Data Structures & Algorithms
- OOP Concept
- C/C++
- Database Management Systems
- Full Stack Development
- Python

PROJECTS

Personal Portfolio Website 🖱 | [React.js](#), [Vite](#), [JavaScript](#), [CSS](#)

Jan 2026

- Developed a responsive personal portfolio website to showcase technical skills, projects, education, and coding profiles.
- Built reusable React components with interactive navigation and a responsive user interface.
- Designed a structured portfolio layout to provide easy access to professional information and projects.

BuildVerse — Project Collaboration Platform 🖱 | [Next.js](#), [React.js](#), [Node.js](#), [Express](#), [MongoDB](#), [JWT](#)

- Built a platform for students to create projects, discover collaborators, and request to join teams.

Implemented JWT authentication, user profiles, project management, join requests, and team-member management. Developed REST APIs using Express.js and MongoDB with protected routes and role-based project actions. .

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript, SQL

Frontend: HTML, CSS, React.js, Vite, Next.js

Backend: Node.js, Express.js

Database: MongoDB

Developer Tools: VS Code, Git, GitHub, Linux

Other: REST APIs, JWT, OOP, DBMS

CERTIFICATIONS

- Cybersecurity Training – Ethical Hacking Penetration Testing
- Google Cloud Workshop

Technical Activities

- **Coding Practice:** Solving DSA problems related to arrays, hashing, prefix sums, and binary search.
- **Self-Learning:** Learning Full Stack Development and Machine Learning while building practical projects.
- **Technical Events:** Participated in coding contests and technical workshops.
