PROFILE

Final-year Electrical Engineering student with knowledge in power systems, electrical machine, panel designing & switchgear. Passionate about applying core electrical concepts to practical and innovative engineering solutions.

INTERNSHIP

Monk Automation Pvt Ltd

Duration : 1 Month

Worked on an ongoing industrial project involving electrical panel systems. Handled continuity testing, panel flow analysis, panel designing and VFD programming. Assisted in PLC interfacing, controller programming, and HMI-PLC communication setup.

Rajhans Fabrication Pvt Ltd

Duration : 1 Month

Assisted in electrical panel wiring, testing, and troubleshooting. Performed VFD configuration, motor connection, and continuity testing. Gained practical exposure to control circuits, sensors, and industrial safety procedures.

PROJECTS

- Single Phase Induction Motor Protection System Using Arduino.
- Foot-Step Power Generation.
- Designed Tank Filling Indication Panel In PLC .
- Design Star-Delta Starter Ladder logic.
- Designed Ladder diagram logic for Automatic Sorting System.
- Designed Full project for energy meter monitoring through SCADA.
- Designed CNC Machine project with PLC programming & HMI Designed.

ACHIEVEMENTS

- Achieved best performance during both internship.
- Department Representative for ROTRACT (Diploma)
