

ASHISH SUDHIR CHAKRANARAYAN

Mechanical Engineering Graduate | Bosch Apprentice | Production Supervisor | Operations Associate
Nashik, Maharashtra, India | +91-8080181024 | ashishsc7@gmail.com

PROFESSIONAL SUMMARY

Mechanical Engineering graduate with practical exposure across plant utility operations, shop-floor production supervision, and structured operations/process work. Comfortable working with SOPs, tracking daily data, and supporting quality and safety checks as part of a team. Currently building toward a long-term career in mechanical/production engineering, with an interest in plant operations, quality, and process support roles.

PROFESSIONAL EXPERIENCE

Operations Associate | WNS Global Services Ltd

Jul 2024 - Jun 2026

Nashik, Maharashtra

- Handled day-to-day transaction/case processing for a client account, working within set turnaround-time targets.
- Followed standard operating procedures (SOPs) for each task and flagged errors or unclear cases to the team lead.
- Recorded daily volumes and error counts in trackers/dashboards used by the team lead for reporting.
- Took part in periodic quality checks on completed work and noted down common mistakes for team discussion.
- Coordinated with trainers and team leads when process instructions were updated, to make sure I was following the latest version.

Production Supervisor | Entremonde Polycoaters

Aug 2019 - Jan 2020

Nashik, Maharashtra

- Assisted in supervising a shop-floor production line, keeping track of material inflow and finished-goods output against daily targets.
- Helped assign workers to stations each shift and flagged idle machines/bottlenecks to the shift manager.
- Noted machine downtime and basic utilization figures for shift reports.
- Checked output at different stages of the line against SOP requirements before handover to the next stage.

APPRENTICESHIP

Diploma Trainee (Apprentice) | Bosch Limited

Oct 2021 - Oct 2022

Nashik, Maharashtra

- Assisted in operating and monitoring the plant's Effluent Treatment Plant (ETP), Ultrafiltration unit, and Demineralized (DM) water plant under supervision.
- Recorded process parameters (e.g., flow rate, chemical dosing) on log sheets and reported readings outside normal range to the shift engineer.
- Helped track chemical stock usage and raised indents when supplies were running low.
- Supported preventive maintenance activities and helped maintain equipment/spare-parts records.
- Followed plant safety procedures and took part in scheduled safety drills and inspections.

EDUCATION

- B.E., Mechanical Engineering** — Late G.N. Sapkal College of Engineering, Nashik (2026)
- B.Com, Bachelor of Commerce** — Yashwantrao Chavan Maharashtra Open University (2023)
- Diploma, Mechanical Engineering** — MET Bhujbal Knowledge City, Nashik (2019)
- SSC** — K.N. Kela High School, Nashik Road (2014)

SKILLS

- Basic knowledge of AutoCAD and SolidWorks (coursework/diploma level)
- Familiar with ETP / DM water plant operations (from Bosch apprenticeship)
- Comfortable with MS Excel for daily tracking and reporting
- SOP compliance and following documented processes
